Ref: Govt.memo.No.2564-A/50-18 dt/11-6-52.

The two roads in the margin are only of minor importance

(1) Sandur Kumaraswami Temple road.
(2) Ramadrug Plateau road.

and it is sufficient if they are classified as other District Roads only as proposed in the Postwar Road Development plan for Sandur state submitted to Government for approval. These roads were originally proposed to be classified as Major District Roads on the recommendation of the Superintending Engineer (Highways). But subsequent detailed examination at the time of preparing the Postwar Road development plan, it was considered sufficient to classify them as Other District Roads. The classification now proposed in the Postwar Road Development plan may therefore be approved.

Ref: From the C.E.(H) letters Nos. 13597-F1/49-34 dated 21-12-50
and No. 13597-C4/49-58 dated 19--5-52.

The file deals with the Post War Road Development Programme for development of communications in the merged area of Sandur in Bellary Dt. With his letter dated 21-12-50 the C.E.(H) submitted a comprehensive programme for the development of roads in the former State of Sandur (together with the) portion of the programme relating to the first five year period.

The Bellary District Board and the Collector of Bellary have agreed to the proposals relating to the Dt. Board works in the draft plan drawn up by the C.E.(H).

2. It is observed that the draft plan provide only for the improvement of the following five existing roads in the merged area of Sandur.

(i) Tornagallu Kudligi Road — M D R
(ii) Sandur Ramgad Hospet Road.
(iii) Ramdrug Plateau Roads.
(iv) Sandur Kumaraswamy Temple Road and
(v) Chikka Sandur Hosahalli Road. — R

In the draft plan the road numbered as item (i) above has been classifed as Major Dt. Road, items (ii) (iii) (iv) as 'Other Dt. Roads' and item (v) as Village Road. It may be pointed out here that in G.O.No. 1642 P.W. dated 23.4.51 ~~the~~ items (i) ~~Items~~ (ii) and (iii) have been classifed as 'M.D.Rs' and these three roads are retained under the direct charge of the Govt. The attention of the C.E. may be invited to this G.O. and he may be asked to state whether roads mentioned ~~in~~ at (iii) and (iv) above should be classified as 'O.D.Rs' or 'M.D.R and if the latter to submit a revised draft programme.

after adopting the correct classification. Subject to orders a draft memo is submitted for approval.

The note on pages 1-2 above, the memo to the C.E.(H) on page 69 c.f. and his reply thereto at page 73 c.f. may be perused. The C.E.(H) has stated that p 73 c.f. the Sandur Kumaraswami Temple road and the Ramadrug Plateau road are only of minor importance and that it is sufficient if they are classified as Other District Roads only as proposed in the P.W.R.D. plan submitted with his letter at page 19 c.f. He has further stated that these roads were originally proposed to be classified as Major District Roads on the recommendation of the S.E.(H) but that in the subsequent detailed examination at the time of preparing the P.W.R.D. it was considered sufficient to classify them as Other District Roads. He has therefore suggested that the classification now proposed in the P.W.R.D. plan may be approved. In the circumstances stated by the C.E.(H) the classification of these two roads as Other District Roads may be accepted and the C.E. may be asked to submit separately detailed proposals for revesting them in the Bellary District Board. Draft submitted.

The details of the roads are given in the list at page 23 c.f. Items Nos.1,2 and 4 in this list are Government roads. Of these item 1 only is a Major District Road and items 2 and 4 are Other District Roads. Item 3 is an Other District Road and item 5 is a Village Road and these two roads are under the control of Bellary District Board. As already stat at 'A' on page 2 ante action will be taken separatel to revest items 2 and 4 in Bellary District Board.

3. The details of the provision made in the five year programme and in the comprehensive programme for improvement of roads are given below:-

The works on Major District Roads under the control o the Government will be financed from State funds and those on Other District Roads and Village roads (under the control of the Dt. Bd.) will e financed by the Bellary District Board with such rants-in-aid as the Government may give to the ~~Dist~~ istrict Board under the P.W.R.D.programme. It cann

be said now whether full grants as requested by the President, District Board, Bellary will be given by the Government for execution of ~~these~~ D.Bd road works.

The question of sanctioning the works on Government roads will be considered separately as new service items or as Part II Scheme in accordance with the procedure followed in sanctioning similar works on other Government roads in the State.

4. A five year plan for the period 1947-48 to 1951-52 for the development of roads other than National Highways in the State was approved by the Government for a total cost of Rs.12.06 crores based on pre-war rates plus 80 per cent. As only a small portion of this plan has been implemented so far it is proposed to continue this plan for the five year period from 1952-53 to 1956-57. ~~for P.W.R.D. works.~~ The Planning Commission of India has allotted only Rs.5 crores for the five year period from 1952 to 1957 for P.W.R.D. works and hence the execution of works has necessarily to be slowed down.

The Cost of the plan for the merged area of Sandur for 1950-52 now submitted by the C.E.(H) is only Rs.1.50 lakhs and constitutes only a small addition to the cost of the plan for the entire State. The Bellary District Board and the Collector of Bellary have recommended the plan.

It may be mentioned that the plan for the development of roads in the merged area of Banganapalle for the period from 1949 to 1952 at a total cost of Rs.2 lakhs and another for Pudukottai for the period from 1947 to 1952 at a total cost of Rs.7.55 lakhs submitted by the C.E.(H) were approved in circulation to M.(PW) , M.(LA), M.(Fin.) and C.M. without reference to the Cabinet. The same procedure may be followed in the present case also.

The file deals with the Post-War Road Development programme of Communications in the merged area of Sandur in the Bellary District at an estimated cost of Rs.1.50 lakhs. The total mileage comprising the five roads mentioned in para.2 on p.1 above, is about 40. As the planning Commission of India has allotted only Rs.5 crores for the five year period from 1952 to 1957 for P.W.R.D. works, the execution of all such works has necessarily to be slowed down. But in view of the small cost involved, which constitutes only a small addition to the cost of the plan for the entire state and in view of the recommendation of the Collector of Bellary and the Bellary District Board, P.W. propose to accept the proposal of the C.E.(H). That department also propose, on the analogy of plans for development of roads in the merged States of Banganapalle and Pudukkottai, that the present case may be sanctioned, after circulation to M.(P.W.), M.(L.A.), M(Finance) and C.M., without reference to the Cabinet. Finance may agree.

2 L.A. and Devt have seen the case. Finance has agreed to the proposal of this Dept. to approve the P.W.R.D plan for the merged area of Sandur submitted by the C.E(H) by obtaining orders in circulation to M(P.W), M(L.A), M(Fin) and C.M., without reference to the Cabinet.

3 As regards the investing of the Gandhi Kumaraswamy Temple Road and the Ramadrug Plateau Road in the Bellary District Board L.A. have suggested that it would be convenient if the transfer takes effect from 1-4-1953 instead of in the current year. Finance agrees with L.A. and has suggested that the draft memo below may be suitably amended. In the circumstances this Dept may accept the suggestion of L.A. that the transfer may take effect from 1-4-53. ~~It does not seem necessary to amend the draft memo as suggested by Finance~~. Perhaps the addition indicated in pencil may be made and the draft issued as added to.
